

ASHIDH P C

Senior Quality Assurance Engineer | Manual & Automation Testing | Playwright (TypeScript)

ashidhchandran@gmail.com | +91 8848293261 | linkedin.com/in/ashidhpc

Portfolio: ashidh-test-engineer.vercel.app | GitHub: github.com/ashidh

PROFESSIONAL SUMMARY

Senior Quality Assurance Engineer with 3+ years of experience across manual and automated testing for business-critical applications. Specializes in Playwright (TypeScript) automation, API testing, SQL database validation, and mobile application testing (Android & iOS), with hands-on use of Generative AI to accelerate test case generation and edge-case discovery. Skilled in functional, regression, integration, system, UAT, exploratory, smoke, sanity, and end-to-end testing across the International Remittance, Forex, AML Screening, Customer Onboarding, Payment Processing, and Healthcare domains.

TECHNICAL SKILLS

Automation: Playwright (TypeScript), Selenium WebDriver (Java – internship), UI Automation, Data-Driven Testing, Postman API Automation

Testing Types: Manual, Functional, Regression, Smoke, Sanity, Integration, System, UAT, Exploratory, End-to-End, Mobile (Android & iOS), API, Database, AI-Assisted Test Case Generation

Tools & Platforms: Postman, Playwright, JIRA, Git, GitHub, GitLab, JMeter (exposure), VS Code

Languages: TypeScript, JavaScript, SQL, Java, HTML, CSS, JSON

Databases: MySQL, Oracle SQL

Methodologies: Agile (Scrum), SDLC, STLC, Defect Life Cycle, Requirement Analysis, Root Cause Analysis (RCA), Release Sign-off

Domain Knowledge: International Remittance, Forex, AML Screening, Payment Processing, Customer Onboarding, Healthcare, Third-Party API Integration

PROFESSIONAL EXPERIENCE

Senior Quality Assurance Engineer | Distinct Infotech Solutions

Feb 2024 – Present

- Developed and maintain Playwright (TypeScript) regression and smoke automation suites covering the Login, Customer Profile, Remittance, and Forex pages, reducing regression testing time by 70–80%.
- Design and execute manual test cases for Remittance, Forex, AML Screening, and Customer Onboarding modules.
- Conduct manual testing of web, Android, and iOS applications across functional, regression, integration, system, UAT, exploratory, smoke, sanity, and end-to-end scenarios.
- Apply Generative AI to generate test scenarios, identify edge cases, and improve overall test coverage.
- Perform API testing of third-party Remittance APIs using Postman, SQL database validation, and end-to-end testing.
- Review business requirements and user stories to identify functional gaps, edge cases, and testability concerns.
- Manage the defect lifecycle in JIRA, perform root cause analysis (RCA), and verify defect fixes.
- Collaborate with developers, business analysts, and product teams throughout Agile sprints and release cycles.
- Support release validation and production deployment, and mentor junior QA engineers.

Automation Testing Intern | The Testing Academy

Sep 2023 – Jan 2024

- Automated test cases for OrangeHRM and a sample e-commerce web application using Selenium WebDriver with Java as part of a structured training program.
- Applied the Page Object Model (POM) design pattern to build maintainable, reusable automation scripts.
- Gained exposure to TestNG, locator strategies, and test reporting fundamentals.

Test & Implementation Engineer | Smart HMS Solutions Pvt. Ltd.

Sep 2022 – Sep 2023

- Designed and executed functional, regression, sanity, exploratory, and end-to-end test cases based on healthcare business requirements.
- Tested healthcare modules covering Patient Onboarding & Care, Inventory Management, Pharmacy & Billing, Human Resource Management, Finance, and Mobility.
- Performed manual testing of web and mobile applications across multiple browsers, devices, and environments.
- Participated in Agile ceremonies, including sprint planning, backlog grooming, and daily stand-ups.
- Managed defect reporting, tracking, regression validation, and requirement traceability using JIRA.
- Prepared test data, verified environments, supported release validation, conducted client demonstrations, and led User Acceptance Testing (UAT).

EDUCATION

Bachelor of Technology (B.Tech), Electrical & Electronics Engineering

Government Engineering College, Idukki | 2021

CERTIFICATIONS

- Playwright JS/TS Automation Testing from Scratch & Framework — Rahul Shetty Academy (Udemy)
- Agile, JPMorgan Chase & Co. (Forage) | SQL Masterclass: Zero to Hero (The Testing Academy) | Advanced Excel (Skill Nation) | Responsive Web Design (FreeCodeCamp)
